#### **Q2 FY21 Performance:**

- ➤ **Revenues** in Q2FY21 at Rs.732 Mn were up 13.2% YoY and 43.4% QoQ reflecting the strong demand returning for containers. Average realisations remained stable with a positive bias during the quarter, which coupled with additional 243 container volumes supported a strong growth. The quarter saw global trade and movement of cargo increasing, especially exports from India. The containers as on 30<sup>th</sup>Sept. 2020 were 9456, with almost 95% of these self-owned.
- ➤ **EBIDTA & PAT in Q2Y21.** The EBIDTA margins were 130bsp lower at 7.9% vs 9.2% in the previous corresponding period, the impact mainly due to compensation/payments to international agents on account of COVID related mobility delays. This was somewhat compensated by cost efficiencies by pruning non-essential staff and detailed revamp of overheads across branches. PAT was boosted by lower Interest and depreciation.

### **Management Comments:**

Commenting on the developments, Mr. Abdul Khalik Chataiwala, Chairman & Managing Director said, "We are pleased to share with you a robust quarter performance by our company. Demand for our containers was high and we were well positioned to capitalize this and able to get higher average realizations during the quarter due to container shortage.

During the quarter, we have been able to add containers in a mix of lease and selfowned boxes. This strategy has enabled us to improve revenues while keeping our capital outflow low. During this time, we especially focused on efficient cash flow management. We were able meet all obligations in time without taking moratorium while further bringing down our overall borrowings. Our Balance-sheet remains strong and we have sufficient liquidity to meet our business requirements.

In FY19 & FY20 we made significant investment in our office infrastructure and operational resources designed to expand our business. During the current year, we are consolidating our investments and have taken a key decision to move to a light model and adding to container deployment with a mix of outright purchase and lease. We currently deploy 9400+ containers, 95% of which are owned by us.

I am excited about what we will achieve together and look forward to your continued support. We assure you of our commitment to continue working towards maximising shareholder wealth. I would like to take this opportunity, on behalf of the Board of Directors, to thank all of you for your continuing support".
